

NAME

SPLASH WIZARD BASIC

DESCRIPTION

The Splash Wizard Basic is a high-quality control system engineered to seamlessly operate 1 to 9 valves for splash pad and dancing fountain applications. Featuring three customizable program selections stored on a convenient SD memory card, this versatile unit adapts to both pass-through and recirculating fountain configurations.

A simple speed adjustment knob provides granular control over the valve switching rate, providing configurable fountain displays. For larger installations, the Splash Wizard Basic can be networked with a second unit, expanding control capabilities to up to 18 valves.

Robust and reliable, the Splash Wizard Basic delivers high-performance splash pad controls in a compact, user-friendly design.

SPECS

- Single control button for ease of use
- Control for 1 to 9 valves
- Can be networked with an additional Basic to control up to 18 valves
- Powered by 120V AC
- Controls valves with 24V AC
- 9.375" x 3.5" x 7.25"
